

RELIABLE AND EFFECTIVE IRON REDUCTION

WFE Residential Iron Filter

Residential Iron Filter

The Antunes Water Iron Filter System is an excellent solution for homes that have experienced staining or poor taste caused by iron contamination.

Iron contamination is a common issue experienced in areas with problematic water. Iron can cause staining of fixtures, discoloration of water, and a metallic taste, creating serious problems for you and your family. The Antunes Water Iron Filter is an effective, reliable, and high-capacity system that reduces iron at the point of entry.

Reduces Both Forms of Iron
Both dissolved and undissolved iron

Chemical-Free
No chemical handling required

High Flow Rate
Up to 15 GPM flow rate

Iron Filter | WFE

Features:

- Reduces iron without the use of chemicals
- Prevents stains, discoloration, and poor taste
- Multiple sizes available
- Easy to install
